Your mission

UNIO is revolutionizing mobility with seamless, space-based connectivity and scaling an early-stage venture at the forefront of SpaceTech. We are looking for a NewSpace Tech Intern to join us on a full time basis.

Your scope of activities :

You will take ownership from day one — driving strategy, executing high-impact projects, and contributing to revenue growth in a fast-paced, customer-facing role. You'll work across cross-functional teams, build and execute, and gain hands-on experience in business development and strategy.

- Assisting in designing and developing software solutions by writing clean and efficient code;
- Identifying and fixing software technical challenges participating in code reviews;
- Exploring and implementing solutions in software development;
- Documenting software features, processes and troubleshooting steps;
- Working closely with the Tech team to understand product requirements and participating in agile development cycles.

Your profile

- Bachelor's student in Computer Science or related field required
- Knowledge of C++, Python
- Interest in developing tools and intuitive interfaces
- Ability and interest in testing developed algorithms
- Enthusiasm for actively solving challenging technical problems
- Good verbal and written communication skills
- Fluent in English

Why UNIO?

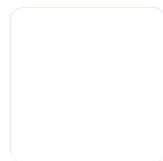

- Ready to come every day to the office
- **Available as soon as possible on a full time basis.**
- Flexible work hours
- 30 paid leave entitlement (pro rated to the duration of internship)
- Be part of a culture that fosters growth, collaboration, and fun
- Unique opportunity to directly contribute to shape and influence the future of the space industry
- Positive company culture, short lines of communication, visionary leadership
- Multinational teams from diverse industry vertical
- Team Event (Lunch, Offsite, Oktoberfest, Christmas Dinner...)
- Office central location in Munich near Viktualienmarkt
