C++ Software Engineer (all genders)

Stuttgart, BW, DE, 70563 ⚲ Göppingen, BW, DE, 73033 ⚲ Karlsruhe, BW, DE, 76227

Join TeamViewer, the leader in remote connectivity software. We harness the potential of cutting-edge technologies such as Augmented Reality and Artificial Intelligence to push the boundaries of innovation and shape the future of digitalization.

Our team of more than 1,500 employees spans different continents, cultures and disciplines. With our inclusive values, we celebrate the unique perspectives and talents

each individual brings to the table and foster a dynamic work environment where new ideas thrive.

Become part of our winning team and help us create a world that works better.

Responsibilities

We are looking for a (Senior) Software Engineer (all genders) to actively contribute to the development of new features for our remote access, control and support solution using the newest standards of C++. The position will report to the Team Manager Software Development and provides an excellent opportunity to create impact and add value in an agile, modern environment.

- Design and develop platform independent functionalities for our desktop client using C++
- Optimize and enhance our software with new, efficient algorithms and technologies
- Work collaboratively in a Scrum development team within a continuous integration environment
- Be responsible for ensuring efficient implementation and for code of the highest quality
- Ensure that our software is stable and runs efficiently on many different browsers and systems (more than 2.5 billion installations)
- Have room to experiment and grow your skills in various areas

Requirements

- University or college degree in the field of computer science, software engineering, or any other related subject
- 2+ years of professional experience in the field of object-oriented software development using C++ (C++ 14 or above) and design patterns
- Experience in any of the following fields would be desirable: Qt, Swift, Objective-C or JavaScript/React
- Structured and analytical way of thinking / working, being a team player, as well as motivated to learn new things
- Fluency in English is mandatory, German is a plus

What we offer

- **Onsite Onboarding** in our HQ office for an optimal start
- **Great compensation and benefits packages** including company achievement bonus and regular salary reviews
- **Public transport friendly** offices
- **Special terms** for local gyms
- Access to *Corporate Benefits platform* with many **discounts**
- Regular **Team events** and company-wide celebrations
- **Open door policy**, no dress code rules and frequent all Hands
- **Hybrid** and **Flexible** work time with up to 50% home office
- **Work From Abroad Program** allowing up to 40 days of work outside your contracting country
- We celebrate **diversity** as one of core values, join and drive one of the c-a-r-e initiatives together with us!

TeamViewer is an equal opportunities employer and is committed to building an inclusive culture where everyone feels welcome and supported. We C-A-R-E and understand that

our diverse, values-driven culture makes us stronger. As we continue to grow as a company, we also focus on enabling our employees to grow both personally and professionally. We are proud to have an open and embracing workplace environment that will empower you to be your best no matter your gender, civil or family status, sexual orientation, religion, age, disability, education level, or race.
